

THANK
YOU

Now is the moment to say good bye again, but I'm just want to tell you, that you are always going to be in my heart. And always I will remember the good moments that we talked, the moments that we passed doing funny things (camping, water-sky and the rides of 30 minutes that became be 3 hours). I'm really glad to have had the opportunity of be here and have spent time with you.

Just know one thing I really love you. Actually you were and you're still be an example for me.

Take care.
